# A letter from our CEO

When I started 3G Chemical Solutions in 2016, I envisioned this company as a leader in the chemical and manufacturing industry. Today, 3G has grown into a thriving chemical supplier that sees manufacturing in its future and would be one of very few female-led and minority-owned chemical facilities in the United States. We owe much of our success to our growing client base and hard-working staff whose support throughout the COVID-19 pandemic helped 3G expand to new markets and products.

I am excited about the growth of 3G. We have the unique opportunity to produce cost-effective products and provide many industries nationwide with chemical solutions that create safe, efficient facilities. Service is at the forefront of everything we do, and we look forward to providing solutions tailored to your needs.

Sincerely,

*Aleia Shipman*

Aleia Shipman, CEO/Founder
