

DIRECTIONS FOR USE

MANUAL CLEANING: Remove and cover all food products. Dilute one part degreaser with 10 to 20 parts hot water, depending on severity of soiling. Apply diluted solution with a mop or sprayer. Let the solution stand for approximately five minutes, then scrub the application area with a machine or brush. Pick the solution up with a wet vac or mop and then rinse with hot water.

FOAM APPLICATION USE: Remove and cover all food products. Heavy encrusted soil should be removed manually or with pressure-washing equipment. Fill the dispenser reservoir with concentrated degreaser. Attach the supply line to the foam nozzle and then connect the hot water supply line. Apply hot foam liberally to all surfaces that require cleaning. Allow the foam to stand for approximately five minutes. Follow by rinsing the area with hot water using either pressure-washing equipment or a hose and spray nozzle.

SOAK TANKS: Dilute degreaser with up to 20 parts water. Submerge parts to be cleaned in the solution and allow them to soak until the soil loosens sufficiently so it can be rinsed away.

Manufactured By:
Creative Chemicals, Inc.
88 Winter St.
Holyoke, MA 01040

CREATIVE
CHEMICALS

FORCE 5

CONCENTRATED CHLORINATED
CLEANER & GREASE STRIPPER

NET CONTENTS: 1 U.S. Gallon (3.79 Liters)

DANGER

Causes Skin Irritation
Causes Serious Eye Damage

Precautions

Wash hands, forearms and face thoroughly after handling. Wear eye protection and protective gloves.

If Swallowed: Rinse mouth. Do NOT induce vomiting. **If on Skin:** Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs, get medical advice/attention. **If Inhaled:** Remove person to fresh air and keep comfortable for breathing. **If in Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor.

Precautions for Safe Handling

Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.

Additional First Aid Measures

Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible). See Precautions above and Safety Data Sheet for additional information.
