

RAM EXTRA high-powered, non-acid drain opener penetrates clogging masses, converting them to soft pulp that flushes through the system - cleans and clears clogged drains. Heavier than water, it goes right to the clog and dissolves organic matter, grease, soap, paper, hair and lint. Harmless to plumbing and septic systems, when used as directed. It should not be used in garbage disposals.

DIRECTIONS

CAUTION: Should not be mixed with or added to any other chemicals.

FOR CLOGGED DRAINS: Slowly pour 16 ounces directly into drain opening. Let stand for 15 minutes. Flush drain with plenty of cold water. If necessary, repeat application and let stand 45 minutes. Badly clogged large industrial drains may require several treatments, and allow to stand overnight before flushing with water.

FOR SLUGGISH, SLOW RUNNING DRAINS: Pour 8 ounces slowly and directly into drain. Repeat procedure two or three times at 15 minute intervals. After last application, rinse drain thoroughly with cold water.

TO CONDITION DRAINS, PREVENT BUILD-UP OF CLOGGING MASS - EIGHT OUNCES IN EACH DRAIN WEEKLY KEEPS DRAINS FREE FLOWING and PROVIDES "ODOR POLLUTION" CONTROL.

CONTAINS: SODIUM HYDROXIDE, 1310-73-2; WATER, 7732-18-5; SURFACTANT, 9016-45-9; FRAGRANCE
